**WEEKLY WEATHER OUTLOOK
VALID FROM SEPTEMBER 13 TO 19, 2025**

Summary: During the period under review, the majority of cities are expected to experience moderate to heavy rainfall between September 13 and 15. From September 16 to 17, most cities are likely to observe intermittent rainfall characterized by brief periods of sunshine alternating with scattered showers. This will be followed by widespread heavy rainfall on September 18, which may lead to localized flooding in low-lying areas and disruptions to daily activities. Overall, the forecast indicates a wet period across much of the country, with varying intensities of rainfall that will require close monitoring for potential impacts on transportation, agriculture, and livelihoods.

- ❖ Friday (September 19): Fair weather with low rainfall is anticipated in Sanniquellie and its environs.

Voinjama, Lofa County

- ❖ Saturday (September 13): Moderate rainfall is anticipated in Voinjama and its environs.
- ❖ Sunday and Monday (September 14-15): Heavy rainfall is anticipated in Voinjama and its environs.
- ❖ Tuesday (September 16): Fair weather is anticipated in Voinjama and its environs.
- ❖ Wednesday and Thursday (September 17-18): Moderate rainfall is anticipated in Voinjama and its environs.
- ❖ Friday (September 19): Fair weather with low rainfall is anticipated in Voinjama and its environs.

Note:

The anticipated rainfall may cause localized flooding, particularly in low-lying and flood-prone areas. It may also create conditions favorable for mosquito breeding, increasing the risk of malaria cases in some regions. Residents are strongly advised to take the following precautions:

Stay informed by regularly monitoring official weather updates from the Liberia Meteorological Service (LMS) and other trusted sources such as:

- ✓ National Disaster Management Agency (NDMA)
 - ✓ Liberia National Red Cross Society (LNRCS)
 - ✓ Local radio and television stations
 - ✓ Other recognized emergency communication platforms
- ❖ **Carry rain gear** like an umbrella, a raincoat, and waterproof footwear to stay dry and safe during sudden downpours and on slippery surfaces.
 - ❖ **Ensure proper drainage** by clearing gutters, culverts, and other drainage systems around homes and communities to reduce water accumulation and minimize flood risks.
 - ❖ **Protect your health** by taking antimalarial medications as prescribed or recommended by healthcare professionals, especially if you live in or plan to travel to high-risk areas.

- ❖ **Reduce mosquito populations** by fumigating your homes and surroundings to prevent the spread of malaria and other vector-borne diseases.
- ❖ **Maintain a clean environment** by eliminating ponds, properly disposing of waste, and keeping surroundings free of debris.
