

Moderate rainfall expected along the coast of Liberia (Nov 19, 2025)

Urgency: Expected

Severity: Moderate

Certainty: Likely

Issued:

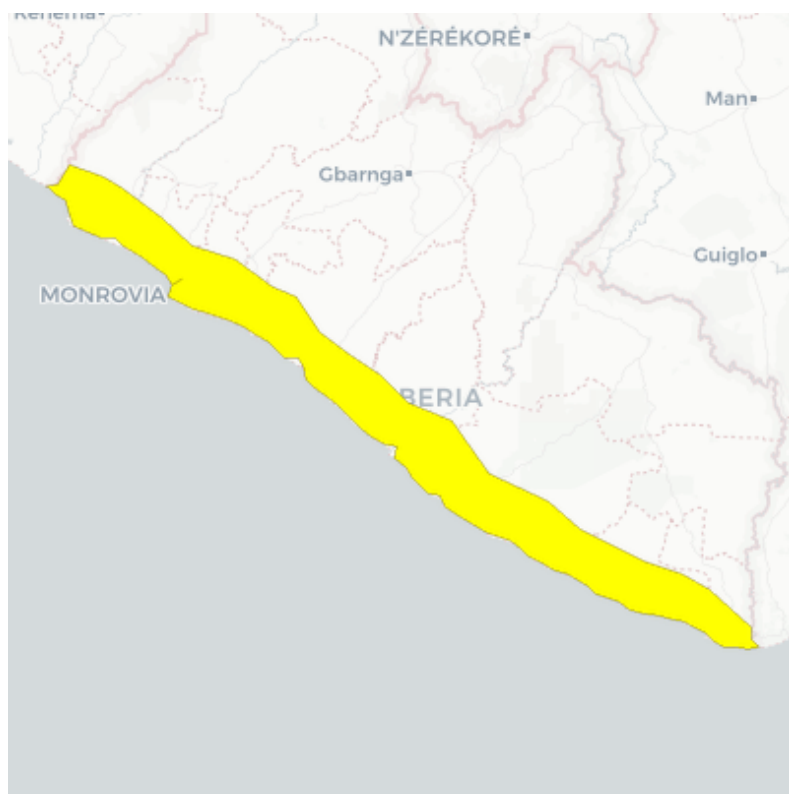

Wed 19 Nov 2025
16:10

Effective:

Wed 19 Nov 2025
16:10

Expires:

Thu 20 Nov 2025
00:00

Area:

Coastal areas of Liberia

Description:

Moderate rainfall is expected along Liberia's coastal areas over the next 12-24 hours. Periods of steady showers and brief heavier bursts may reduce visibility on the road and sea. Localized waterlogging and minor disruptions to coastal and marine activities are possible.

Instruction:

Expect periods of moderate rainfall and reduced visibility. Avoid crossing flooded or waterlogged areas. Drive with caution on wet and slippery roads. Stay away from drains, streams, and low-lying areas. For coastal and marine users: Small boats should exercise caution; seas may become choppy. Reduce speed and navigate carefully during low visibility. Check weather updates from LMS before going offshore.
