- ❖ Sunday and Monday (August 10-11): Low to moderate rainfall (🌧️) is anticipated in Zwedru and its environs.

**Note:**

The anticipated rainfall may result in localized flooding, especially in low-lying and flood-prone areas as mentioned above. Residents are therefore strongly advised to take the following precautions:

- ❖ **Stay informed** by regularly monitoring official weather updates from trusted sources such as:
  - ✓ Liberia Meteorological Service (LMS)
  - ✓ National Disaster Management Agency (NDMA)
  - ✓ Liberia National Red Cross Society (LNRCS)
  - ✓ Local radio and television stations
  - ✓ Other recognized emergency communication platforms
- ❖ **Be prepared when traveling** by carrying appropriate rain gear, including umbrellas, raincoats, and waterproof footwear, to protect against sudden downpours and slippery conditions.
- ❖ **Ensure proper drainage** by regularly clearing gutters, culverts, and other drainage systems around homes and communities to minimize the risk of water accumulation and flooding.
